**AMENDMENT NO. 2  
TO THE  
COOPERATIVE PROJECT AGREEMENT  
HEALTH FACILITY IMPROVEMENT PROJECT  
NATIVE VILLAGE OF GOODNEWS BAY, ALASKA**

**PROJECT NO. AN 03-G72**

DATE OF AGREEMENT:  
October 2007

**A. INTRODUCTION**

Throughout this Amendment these entities are referred to as follows:

Native Village of Goodnews Bay	=	Village
Alaska Native Tribal Health Consortium	=	ANTHC
Cooperative Project Agreement	=	CPA
Denali Commission	=	Commission

On Oct. 27, 2003, ANTHC and the Goodnews Bay Water & Sewer Utility Board executed a CPA authorized by the Denali Commission to repair and renovate an existing combination washeteria/water treatment plant in the City of Goodnews Bay, Alaska. The scope of work included design, construction planning, site preparation, materials and equipment, renovation, and labor.

The repair and renovation included equipment, such as washers and dryers, and the material and labor necessary to complete work on bathroom and shower facilities. The project did not involve any ground disturbance. The project was funded with \$105,000, via Denali Commission Financial Assistance Award No. 0093-DC-2003-I8, dated June 2003.

On April 12, 2007, ANTHC and the Native Village of Goodnews Bay executed an Amendment No. 1 to the CPA to add \$125,000 to cover the costs of deficiencies, discovered during renovation, in the building and washeteria system, and \$25,000 to cover the consequent increase in ANTHC support services charges. The additional funds were provided via Denali Commission Financial Assistance Award No. 272-07, dated January 2007.

The original Agreement was between ANTHC and the Goodnews Bay Water & Sewer Utility Board. Amendment No. 1 changed the parties involved to ANTHC and the Native Village of Goodnews Bay. Consequently, the Native Village of Goodnews Bay assumed ownership and responsibility for operating and maintaining equipment and facilities provided by the project.

## B. REVISION OF PROJECT FUNDING

The source of the original project funding expired Dec. 31, 2006. At that time, \$54,534.34 of those funds had been expensed (see cost estimate table).

The Commission then made the remaining project funding available via Denali Commission Financial Assistance Award No. 272-07, Amendment No. 1, dated May 2007. The award change is needed to financially close 0093-DC-2003-18, whose performance period has expired; the change includes \$383.34 of supplemental funds.

A revised cost estimate table is provided below.

Job Type	Scope of Work	Qty	Units	Unit Cost	Total Cost	Funding Sources		
						Denali FY03	Denali FY07	Denali FY07
C-WA	Renovate washeteria/ water treatment plant	1	LS	225,383.34	225,383.34	49,534.34	125,000	50,849
<b>Goodnews Bay Award</b>					<b>\$225,383.34</b>	<b>\$49,534.34</b>	<b>\$125,000</b>	<b>\$50,849</b>
M-PP	Professional Operations Charges				5,000.00	5,000.00		
M-CB	ANTHC Support Services Charges				25,000.00		25,000	
<b>Total Award</b>					<b>\$255,383.34</b>	<b>\$54,534.34</b>	<b>\$150,000</b>	<b>\$50,849</b>

This document constitutes Amendment No. 2 to repair and renovate a combination washeteria/water treatment plant in Goodnews Bay, Alaska. All other sections of the original CPA and/or Amendment No. 1 remain in effect as agreed upon and executed.

## MEMORANDUM

DATE: September 21, 2007

FROM: Environmental Coordinator

SUBJECT: Goodnews Bay Washeteria Improvements– Environmental Review  
Project No. AN 03-G72

TO: FOR THE RECORD

An environmental review, in accordance with the National Environmental Policy Act (NEPA) and the National Historic Preservation Act (NHPA), is required based upon proposed Federal funding for this project. Current IHS policy (Federal Register, Vol. 58, No. 3, January 6, 1993, pp. 569-572) and Health and Human Services (HHS) General Administration Manual Part 30 allow for functional exclusions for certain actions. IHS Policy Section I. 2 and 3 allow for acquisition of equipment and renovation that does not substantially change the function of an existing building.

The Alaska Native Tribal Health Consortium (ANTHC) has considered this project in consultation with applicable federal, state, and local authorities for the potential to have a significant effect, individually or cumulatively, on the human environment or a natural or cultural asset protected by an environmental statute or Executive Order.

## FINDING

This environmental review finds that no further environmental investigation is necessary. It is recommended that the Indian Health Service approve this action as categorically excluded from further evaluation under the National Environmental Policy Act (NEPA).

ANTHC will revisit this environmental review to determine if potential environmental concerns have been addressed if the scope of work changes.

Riki Lebman
